

SERTOtool

the pneumatic pre-assembly tool

Flexibel in use

- Handy tabletop unit
- Easy to transport
- Convenient, can be placed anywhere

Convincing in use

- Safe and fast assembly
- Constant quality
- High economic efficiency

SERTOtool

The SERTOtool for tube diameters of up to 12 mm is operated with compressed air, and with its small size and low weight of approx. 10 kg it can be used almost anywhere.

Up to five tools for tube sizes from 4 to 12 mm are contained in the rotatable tool drum. They are labelled with the corresponding tube diameters to prevent mix-ups. The mechanically limited stroke and the integrated time delay ensure perfect compression every time. SERTOtool is especially suitable for pre-assembling small to medium series and guarantees constant quality and high efficiency.

rotatable tool drum for up to five sizes

Product range

SERTOtool for use with	for tube diameters (d)	Mat.-Nr.
Brass M	4, 5, 6, 8, 10	980.2100.000
